Notice regarding Sale of Carbon Credits

LNG Japan Corporation (President and CEO: Kyo Onojima; Headquarters: Chiyoda-ku, Tokyo; hereinafter referred to as the “Company”) hereby announces that it purchased carbon credits from Sojitz Corporation (Representative Director, President & CEO: Masayoshi Fujimoto; Headquarters: Chiyoda-ku, Tokyo) and sold these today to Hokkaido Gas Co., Ltd. (President: Hiroshi Ohtsuki; Headquarters: Sapporo, Hokkaido).

These carbon credits were certified by a highly credible certification agency for CO₂ emission reductions achieved by environmental conservation projects.

The Company has been engaged in the LNG (liquefied natural gas) business for half a century since the 1970s and contributed to the stable energy supply through upstream development, production, and transportation businesses in the LNG value chain.

Going forward, while fulfilling responsibilities for development and stable energy supply with focus on LNG and natural gas, the Company will proactively work to achieve carbon neutrality (net-zero CO₂ emissions) of its activities through carbon credit trading, Carbon-Neutral LNG ^(Note 1) trading, CCUS ^(Note 2) businesses, etc. to contribute to the realization of an environmentally-friendly and prosperous society.

(Note 1) Carbon-neutral LNG: LNG that produces net-zero CO₂ emissions; the CO₂ generated in its life from the mining of natural gas to the final consumption (combustion) is offset by the carbon credits created by environment conservation and other projects.

(Note 2) CCUS: Abbreviation of carbon capture, utilization, and storage. Technologies aimed to reduce greenhouse gas emissions by capturing, utilizing, and storing emitted CO₂.

<Profile of the buyer>

Name of the company: Hokkaido Gas Co., Ltd.
Location: 2-1-1, Kitananajo-higashi, Higashi-ku, Sapporo, Hokkaido
Date of foundation: July 12, 1911
Capital: 7,515,830 thousand yen
Main businesses:
1. Gas business
2. Power supply business
3. Heat supply business
4. Production/sale of gas appliances and related construction work
5. Other related work
